PocketPlot

Every plot.
Every rupee.
In your pocket.

Investor plan: what it costs, what we need, and when the money comes back

Ask ₹40 L · ideal case needs ₹15.1 L · investment back by M7

Coimbatore · Chennai · Madurai · Dindigul | October 2026

Raise ₹40 L. Use ₹15.1 L. Back by M7

₹40 L

committed by the investor (ideal need + 3 months of fixed costs as buffer)

₹15.1 L

actually drawn in the ideal case: startup costs, 2 build months, month 1

M2

first month with a profit; from here the business pays its own way

M7

every rupee invested has come back as profit (ideal case)

If sales come slower

Case	Money needed	Self-funding from	Investment back	Cash generated by M36
Ideal: 20 Team + 2 Business sales a month	₹15.1 L	M2	M7	₹4.28 Cr
Realistic: ramps to the same by month 7	₹33.0 L	M6	M13	₹3.45 Cr
Slow: half the sales	₹52.3 L	M13	M30	₹47.0 L

Layout owners run crores of sales on paper, Excel and WhatsApp

1

Which plot is free?

The printed layout is marked by pen. Sales staff and brokers call the office to check, and two people book the same plot.

2

Who still owes money?

Instalments sit in a notebook or Excel. Dues and registration dates slip, and nobody reminds the buyer.

3

Is the project making money?

Land, approvals, roads, broker commission and salaries are spread across bank, cash and memory. Profit is a guess.

Photo of the drawing in, live colour-coded layout out in 90 seconds

107/107

plot numbers read on a real drawing

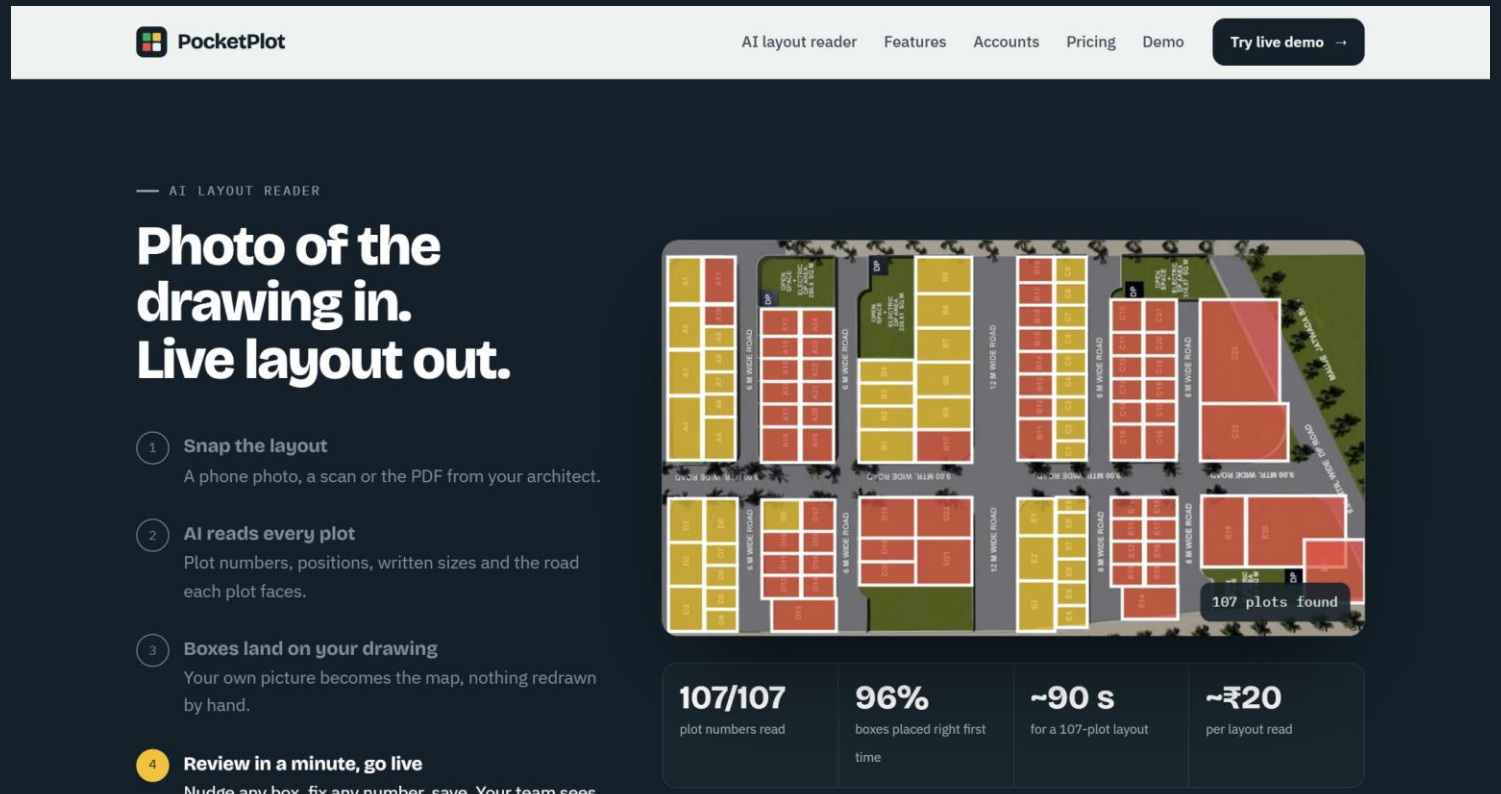

96%

boxes placed right first time

~90 s

photo to live map

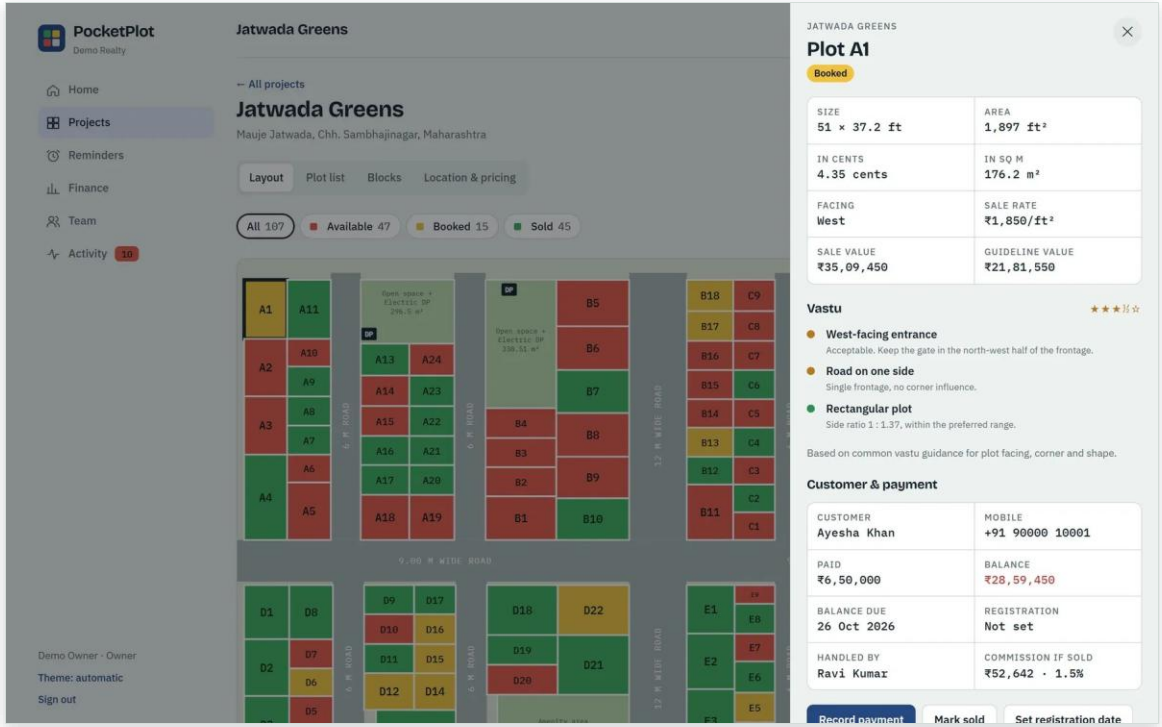

No competitor reads a layout drawing. Everyone else makes the owner type every plot in.

Every plot live for the whole team, with size, facing, vastu and price

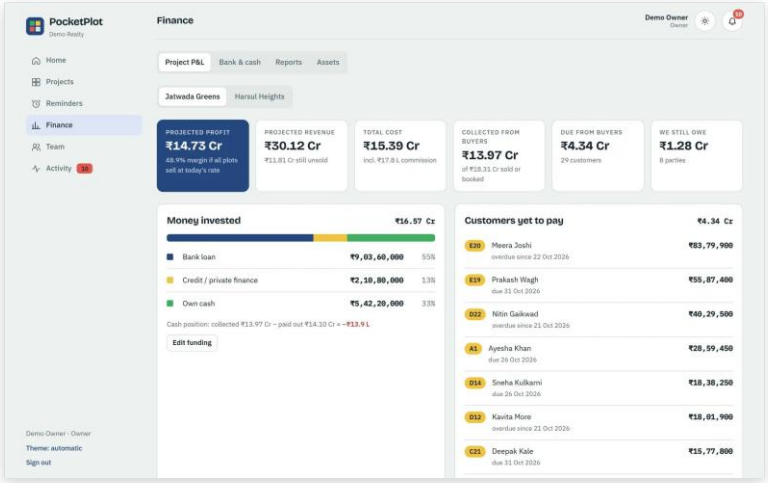

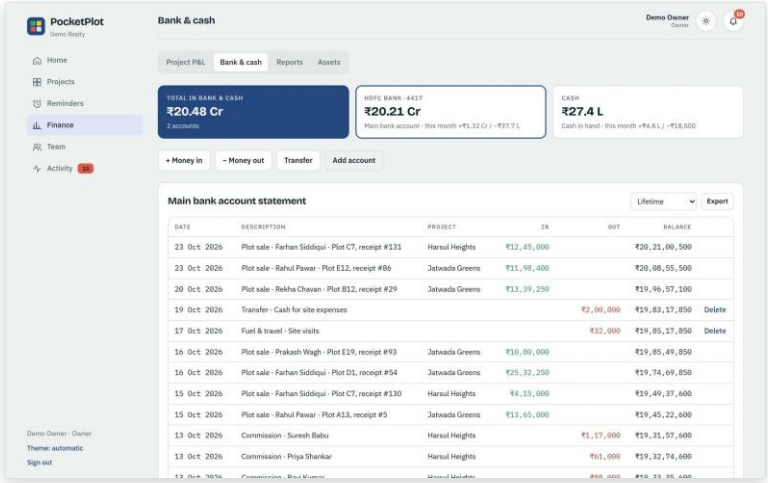

Green sold, yellow booked, red available. Book or sell from a phone; everyone sees it at once.

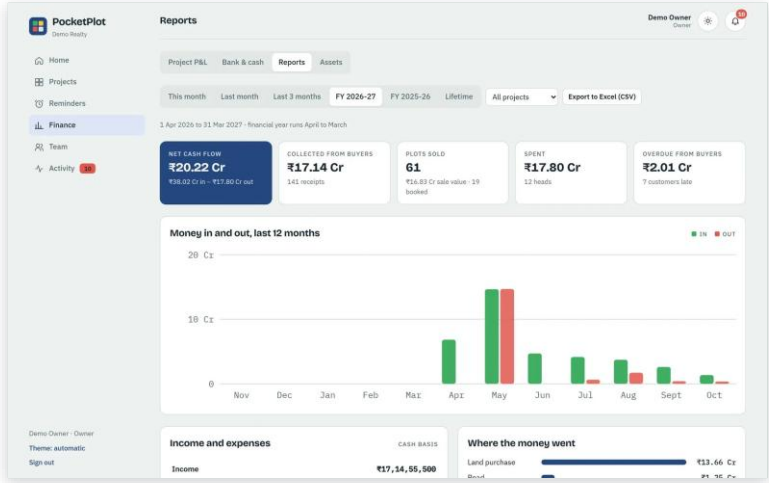

Each plot: sq ft and cents, road facing, vastu, guideline value, sale price, customer, instalments.

Project profit, bank and cash, and reports the owner can trust

Profit per project

Land, approvals, roads, marketing, commissions and salaries against what buyers paid.

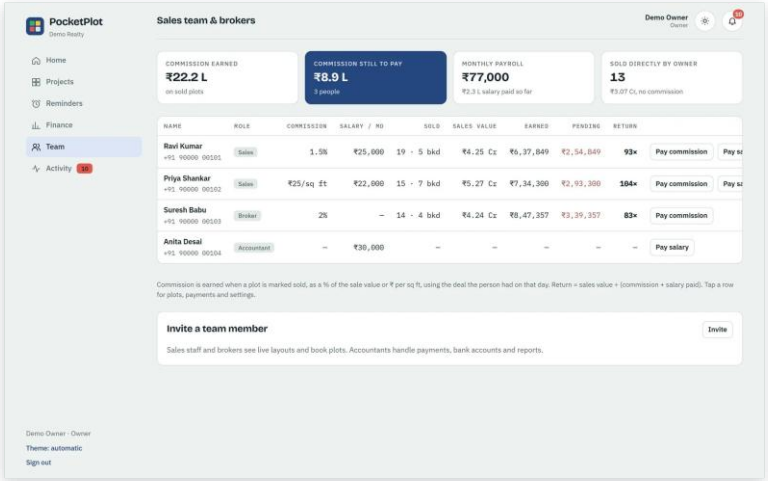

Every rupee in a ledger

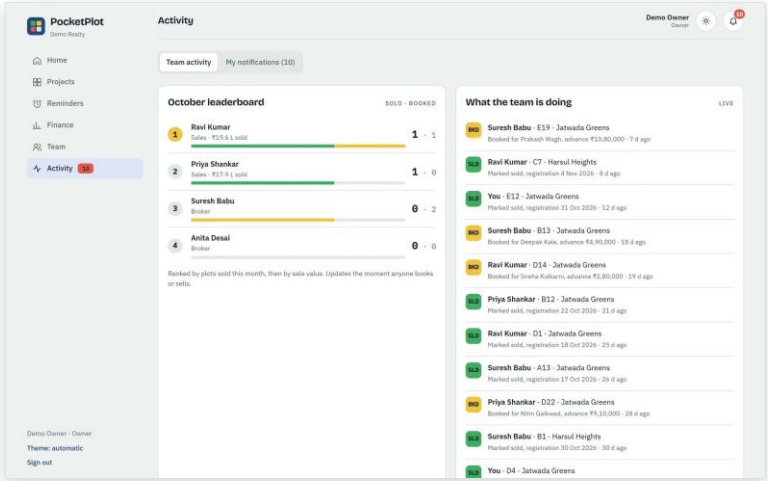

Bank, credit and cash accounts. Payments, expenses and transfers post themselves.

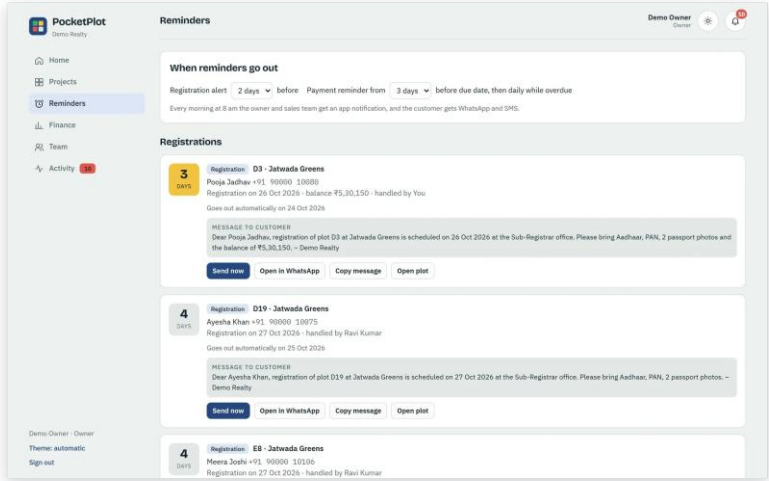

Reports by Indian FY

Month, year or lifetime: cash flow, overdue buyers, team return on cost.

Commissions, leaderboard and reminders keep the team selling

Commission your way

A % of the sale or ₹ per sq ft, per person. Earned on sale, tracked until paid.

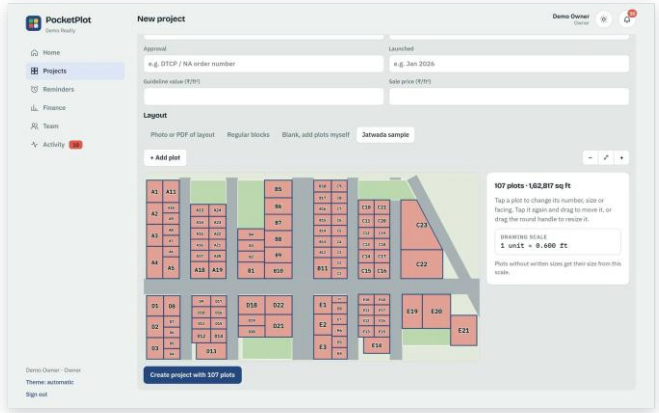

Monthly leaderboard

Who booked and sold the most, live. Owners see effort and return per person.

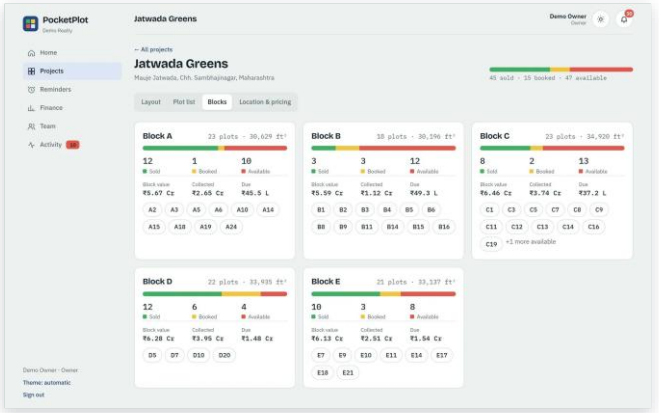

Nothing slips

Registration alerts 2 days ahead, payment reminders before each due date, to team and buyer.

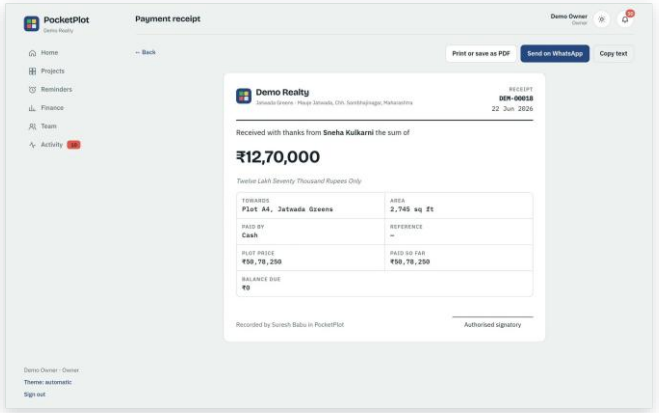

Receipts, instalments, assets and a layout editor are already built

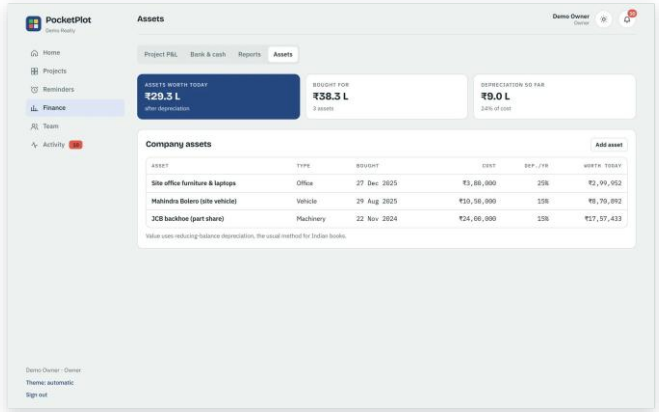

Layout editor: fix any plot the AI read

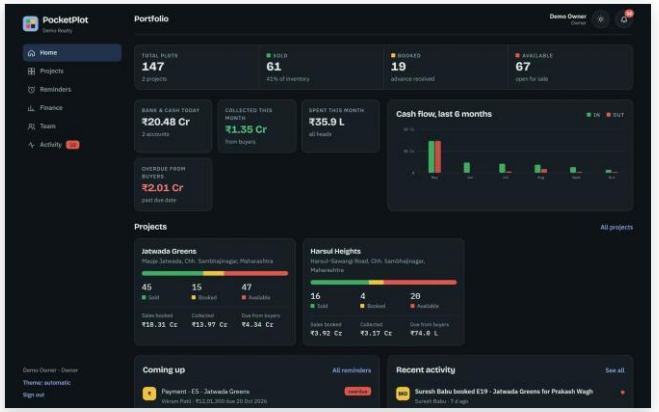

Block-wise view of a project

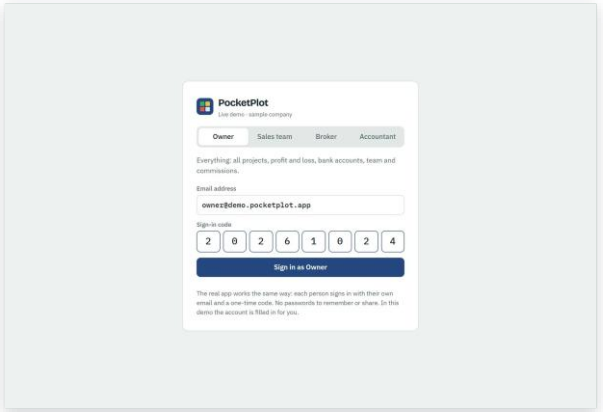

Numbered receipt, rupees in words

Company assets and their value

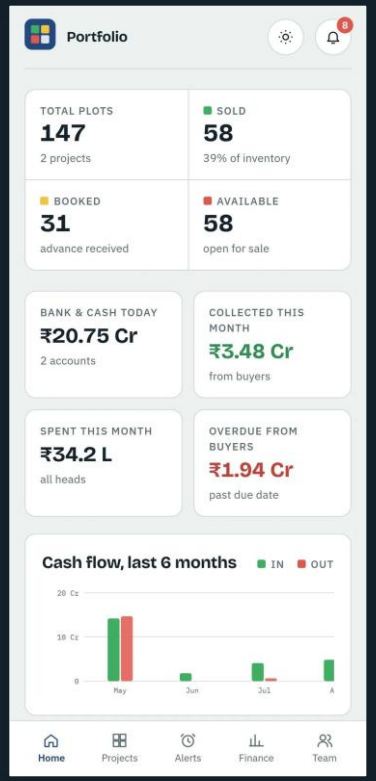

Owner home in dark mode

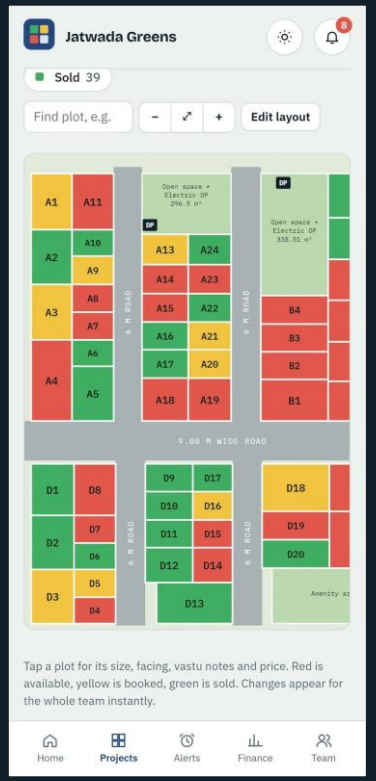

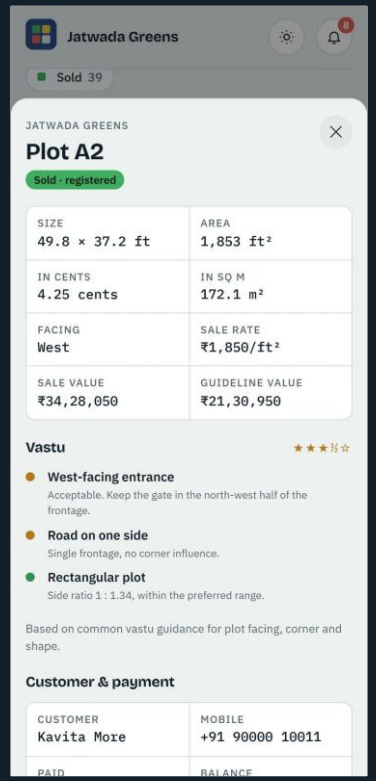

One-click live demo for every role

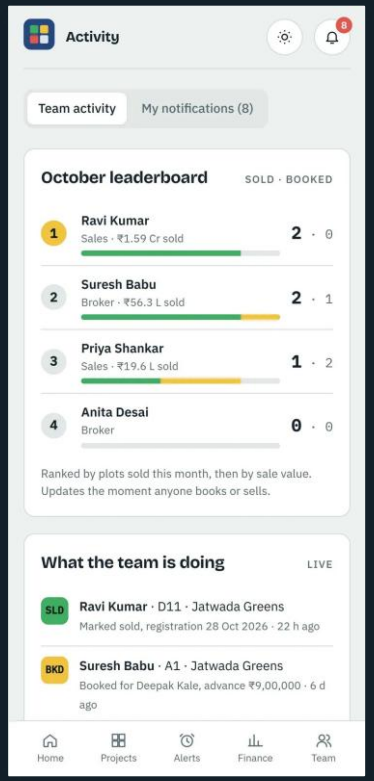

ON THE PHONE

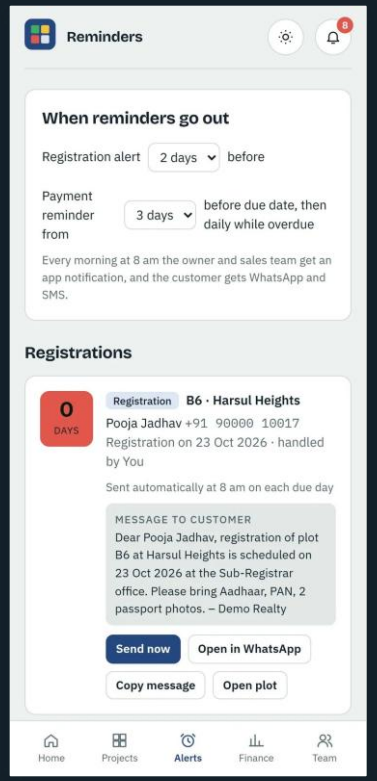

Built for the site visit: Android, iPhone and any browser

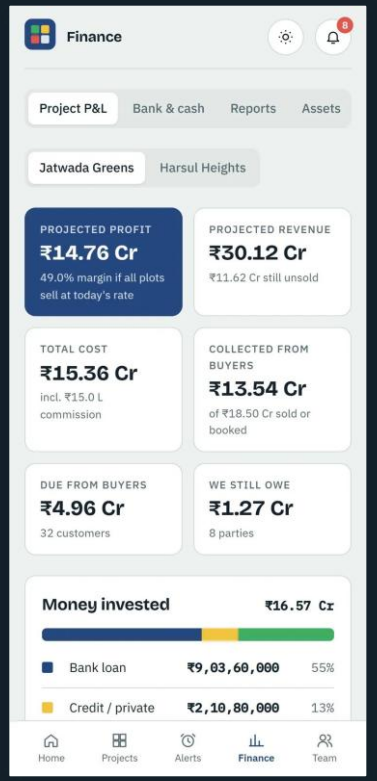

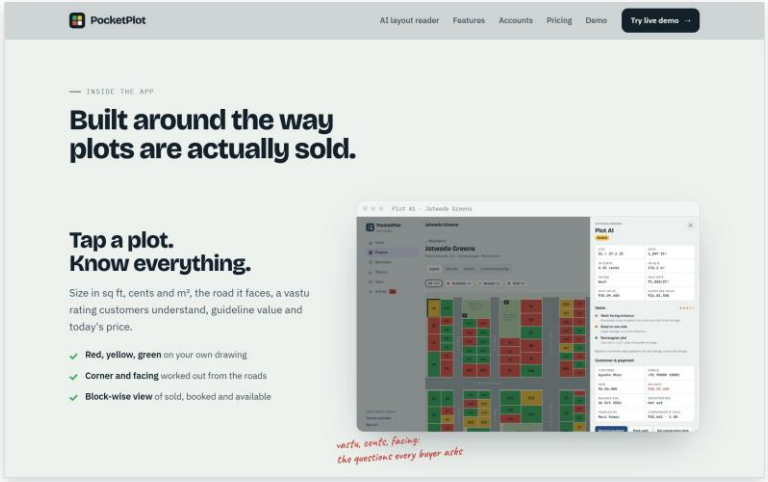

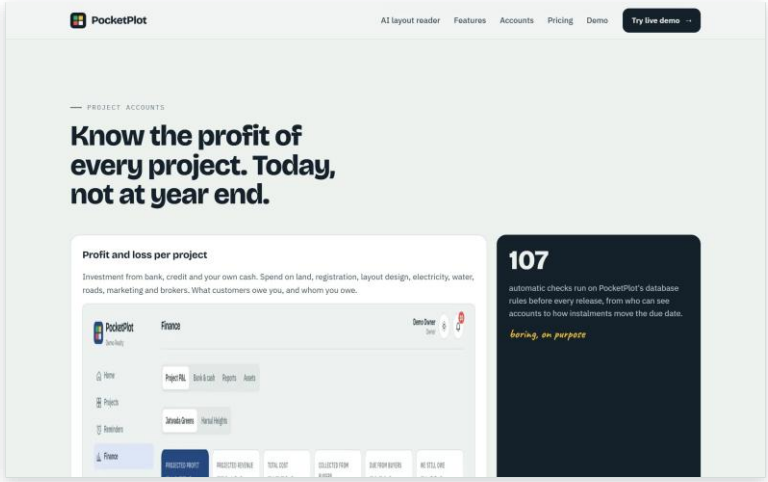

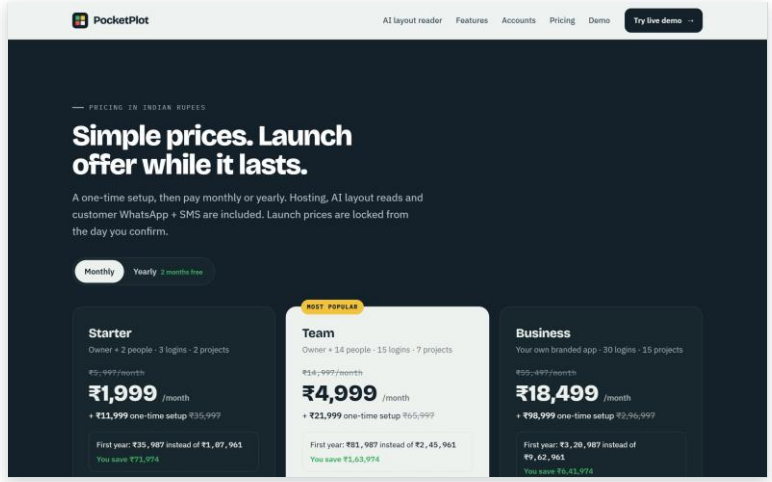

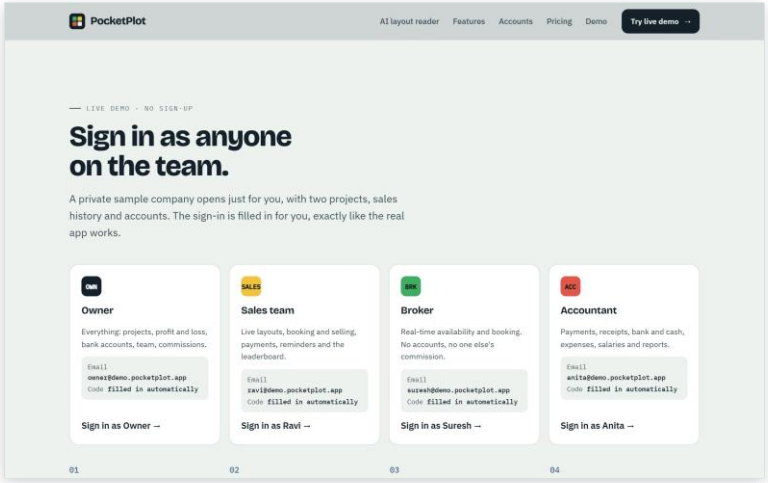

Sales staff carry a ₹15,000 tablet or their own phone and show buyers the live layout at the site. Owners and accountants work from the office computer. One login per person, four roles.

Sales website, pricing and a live demo anyone can try today

- getpocketplot.netlify.app: the sales site with plans, launch offer and an enquiry form that alerts us by email
- pocketplot-n2r.netlify.app/?demo: a private sample company per visitor, in any of the four roles
- The app, database, AI reader, reminders and accounts are built. What is left is billing, store releases and WhatsApp/SMS approvals

Big CRMs and ERPs serve large builders; layout owners make do with Excel

Who	What they have	What they miss for layout owners	Price
Excel, paper layout, WhatsApp, Tally	Free, familiar	No live plot status, no reminders, no project profit; errors and double bookings	Free
Kylas (sales CRM)	Leads, pipeline, WhatsApp add-on, unlimited users	No plot inventory or layout map, no instalments or project accounts	₹12,999/mo flat; WhatsApp +₹3,500/mo
LeadSquared (CRM)	Lead capture, portal integrations, automation	Built for big sales teams; 20-user minimum; implementation fees	₹2,500–6,500 per user/mo; ₹85k–4L setup
Sell.Do (real-estate CRM)	Leads, inventory (IRIS), bookings, channel partners	Apartment-builder focus, 5-user minimum, quote-only pricing	Quote; ~$35 per user/mo
Farvision / real-estate ERPs	Land, legal, construction, sales, accounts (350+ builders)	Heavy ERP, months to implement, desktop-first, no AI layout reading	Quote; lakhs per year
Local custom plot apps	A layout map built for one promoter	One-off build, no updates or support, no accounts	₹1–5 L one-time
PocketPlot	**AI layout from a photo, live map, bookings, instalments, receipts, reminders, commissions, ledger, project P&L**	**Lead capture from portals and Tamil language still to come**	**₹4,999/mo for 15 users**

Sources: kylas.io; LeadSquared partner and competitor pages; Sell.Do pricing terms; Capterra (Farvision); vendor listings. Prices are as published or quoted by third parties, October 2026.

Made for plotted layouts, priced for a 15-person team

AI reads the layout

A photo or PDF becomes the live map in about 90 seconds. Competitors need every plot typed in.

Plot-first, not lead-first

Sq ft and cents, road facing, vastu, guideline value and customer-specific prices on every plot.

Money end to end

Instalments, numbered receipts, bank and cash ledger, expenses, commissions, salaries and project P&L.

Buyers are reminded

WhatsApp + SMS for bookings, instalments and registration dates, included in the plan.

Live for the whole team

Owner, sales, brokers and accountant see one picture with the right permissions, on phone or computer.

Fraction of the price

₹4,999 a month for 15 users is about ₹333 per user, against ₹867–6,500 per user elsewhere.

Three plans, launch offer at one-third of the regular price

Starter

3 logins · 2 projects

~~₹5,997/mo~~

₹1,999

a month

+ ₹11,999 setup ~~₹35,997~~

Yearly ₹19,990 (2 months free)

Team

15 logins · 7 projects

~~₹14,997/mo~~

₹4,999

a month

+ ₹21,999 setup ~~₹65,997~~

Yearly ₹49,990 (2 months free)

Business

Own brand · 30 logins · 15 projects

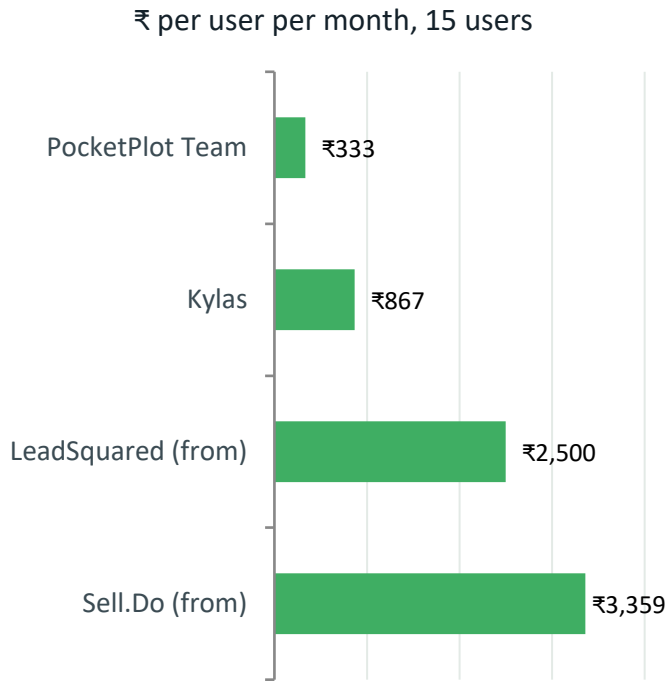

~~₹55,497/mo~~

₹18,499

a month

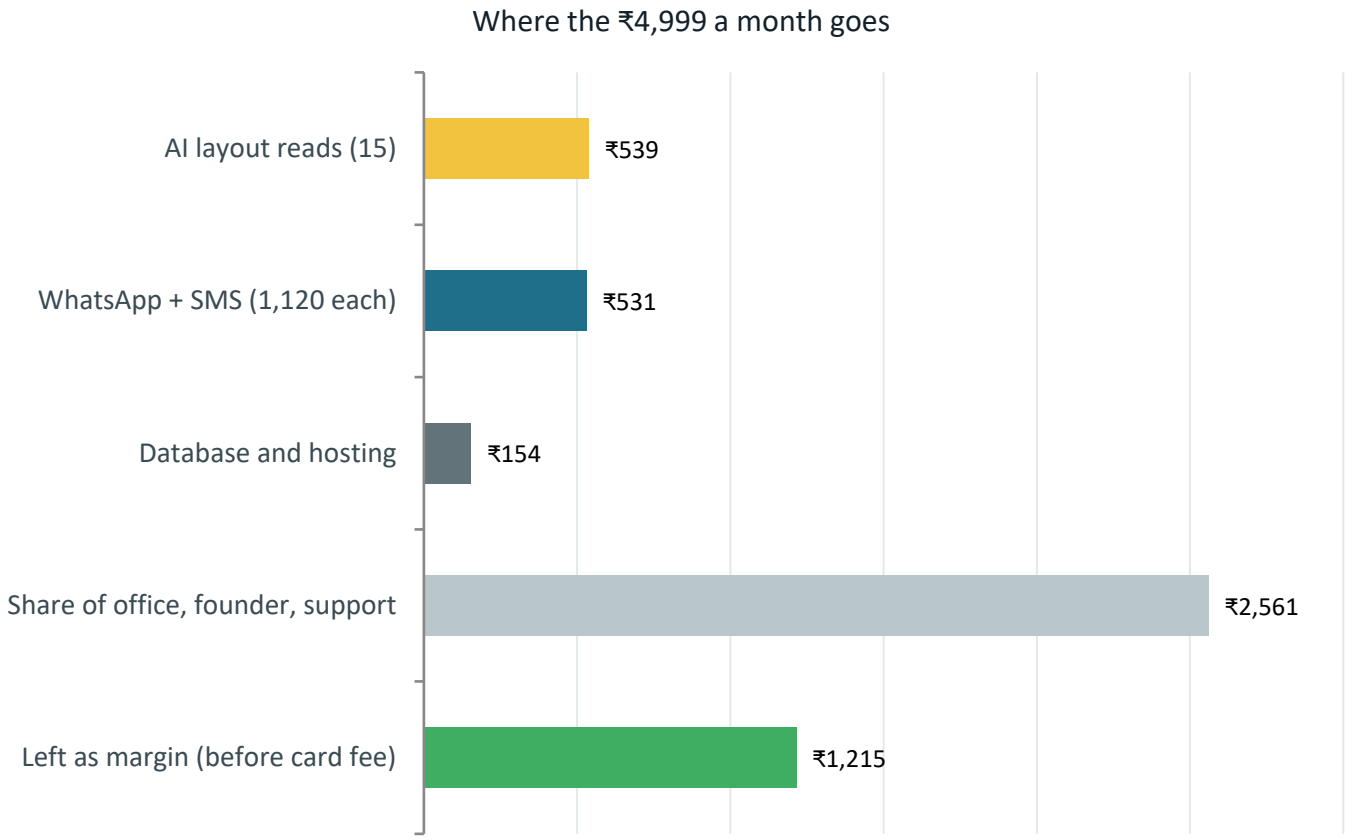

+ ₹98,999 setup ~~₹2,96,997~~

Yearly ₹1,84,990 (2 months free)

Why these prices: each is the cost of serving a customer plus a share of the office, founder and support, divided by (1 − 30% margin). With 22 sales a month the cost-based Team price is now ₹5,999 a month and ₹27,999 setup; we launch at ₹4,999 and ₹21,999 (24% margin) to win the first customers, and can move up after the launch offer. All prices exclude 18% GST.

Each Team customer pays ₹4,999 a month and costs ₹1,223 to serve

₹3,676

left each month after the costs of serving one customer and the card fee

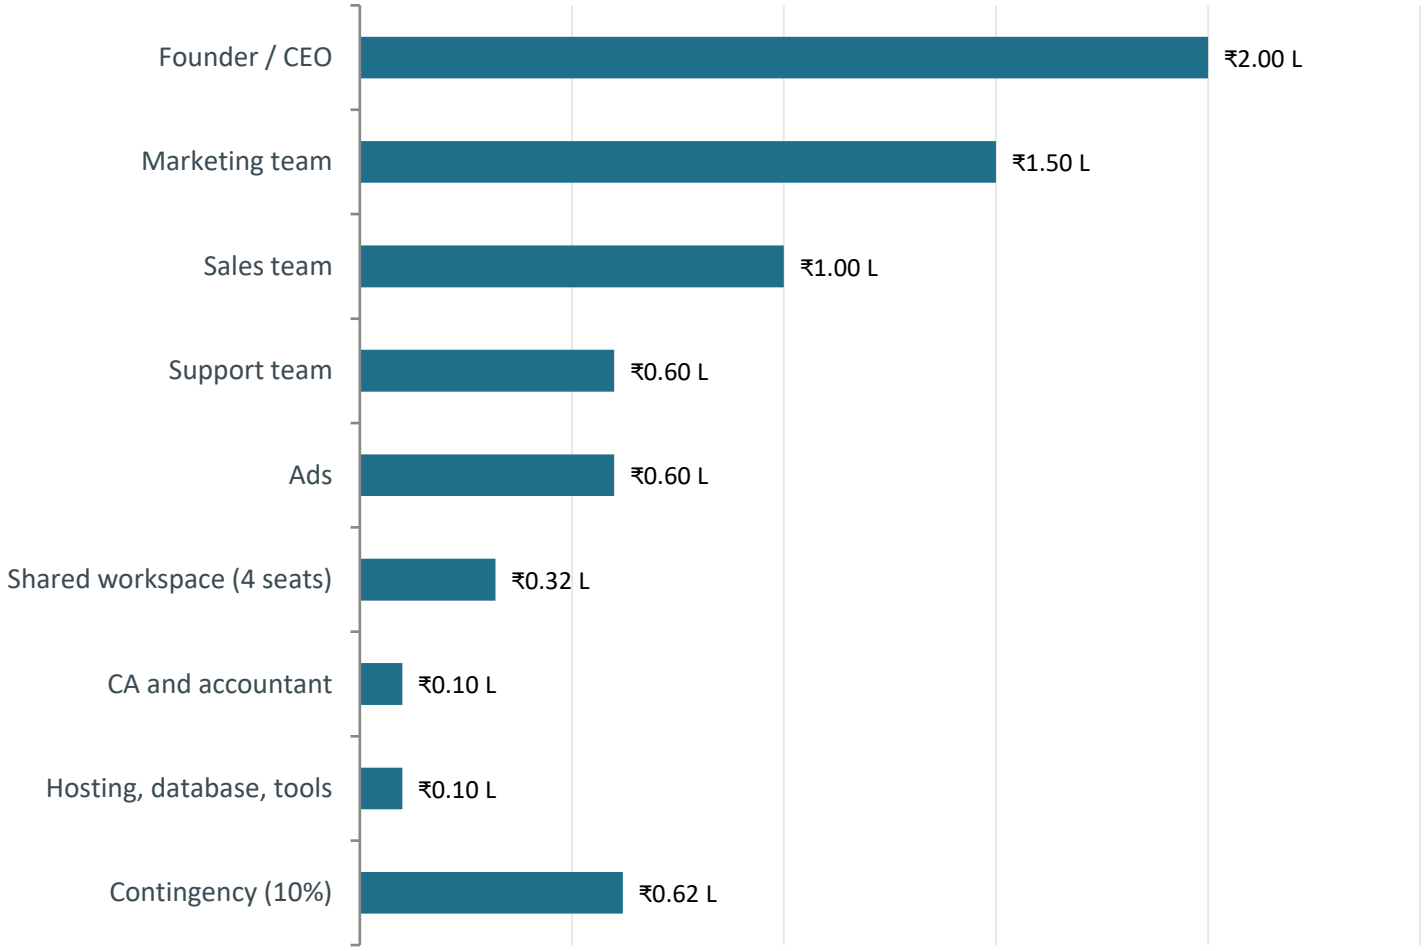

₹21,999

setup fee, paid once; covers sales, marketing and onboarding

187

paying Team customers cover all fixed costs (₹6.8 L a month) without any setup fees

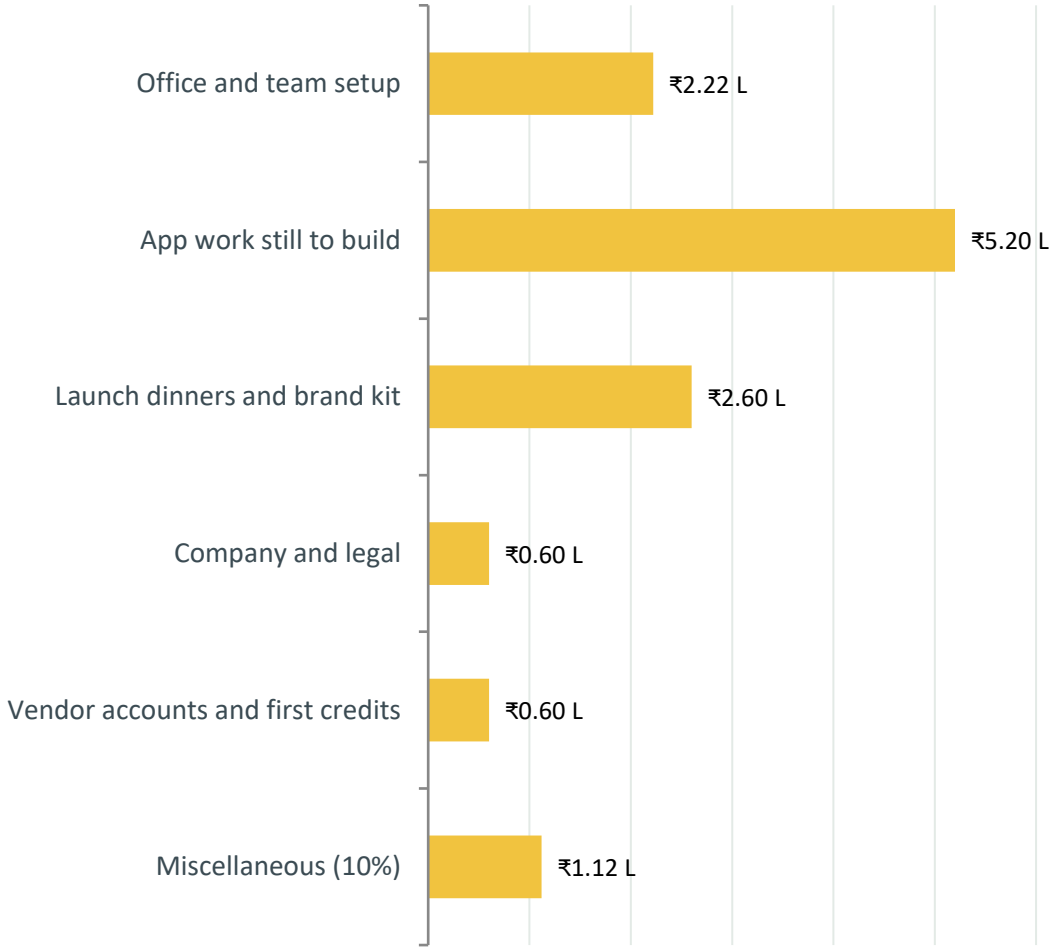

₹6.8 L a month to run the business, people first

What is in it

- Shared workspace in Coimbatore: 4 seats at ₹8,000, power and internet included
- CA and accountant ₹10,000: ROC filings, GST returns, TDS and books
- Founder / CEO ₹2 L from launch; nothing during the 2 build months
- Supabase, hosting, email, app stores and tools under ₹10,000 at this size
- AI reads, WhatsApp and SMS grow with customers and are costed per customer

₹12.3 L once, before launch

Item	₹
App work left: billing, sign-up, store releases, WhatsApp/SMS approvals, phone sign-in, testing (60 days × ₹6,000)	₹3,60,000
Security test ₹60,000 · Mac for iPhone builds ₹1,00,000	₹1,60,000
Launch dinners: Coimbatore, Chennai, Madurai, Dindigul (4 × ₹50,000) + brand kit	₹2,60,000
4 sales tablets ₹60,000 · 3 basic laptops ₹90,000 · hiring ₹40,000 · workspace deposit ₹32,000	₹2,22,000
Pvt Ltd registration, trademark (2 classes), terms and privacy policy	₹60,000
Apple and Google accounts, SMS DLT, first WhatsApp/SMS/AI credits, domains	₹59,504
Miscellaneous and contingency (10%)	₹1,12,150
Total	**₹12,33,654**

Launch in four cities with dinners for layout owners, then 22 sales a month

Coimbatore

Home base, first dinner in launch week

Madurai

Dinner in launch month 1

Dindigul

Dinner in launch month 1

Chennai

Dinner in launch month 2

1

Build (2 months)

Finish billing and store releases, get WhatsApp and SMS approved, register the company, hire the team.

2

Launch dinners

40–60 layout owners per city see their own layout go live from a photo, on the spot.

3

Field sales

4 sales staff with tablets visit sites; brokers and surveyors refer owners for a commission.

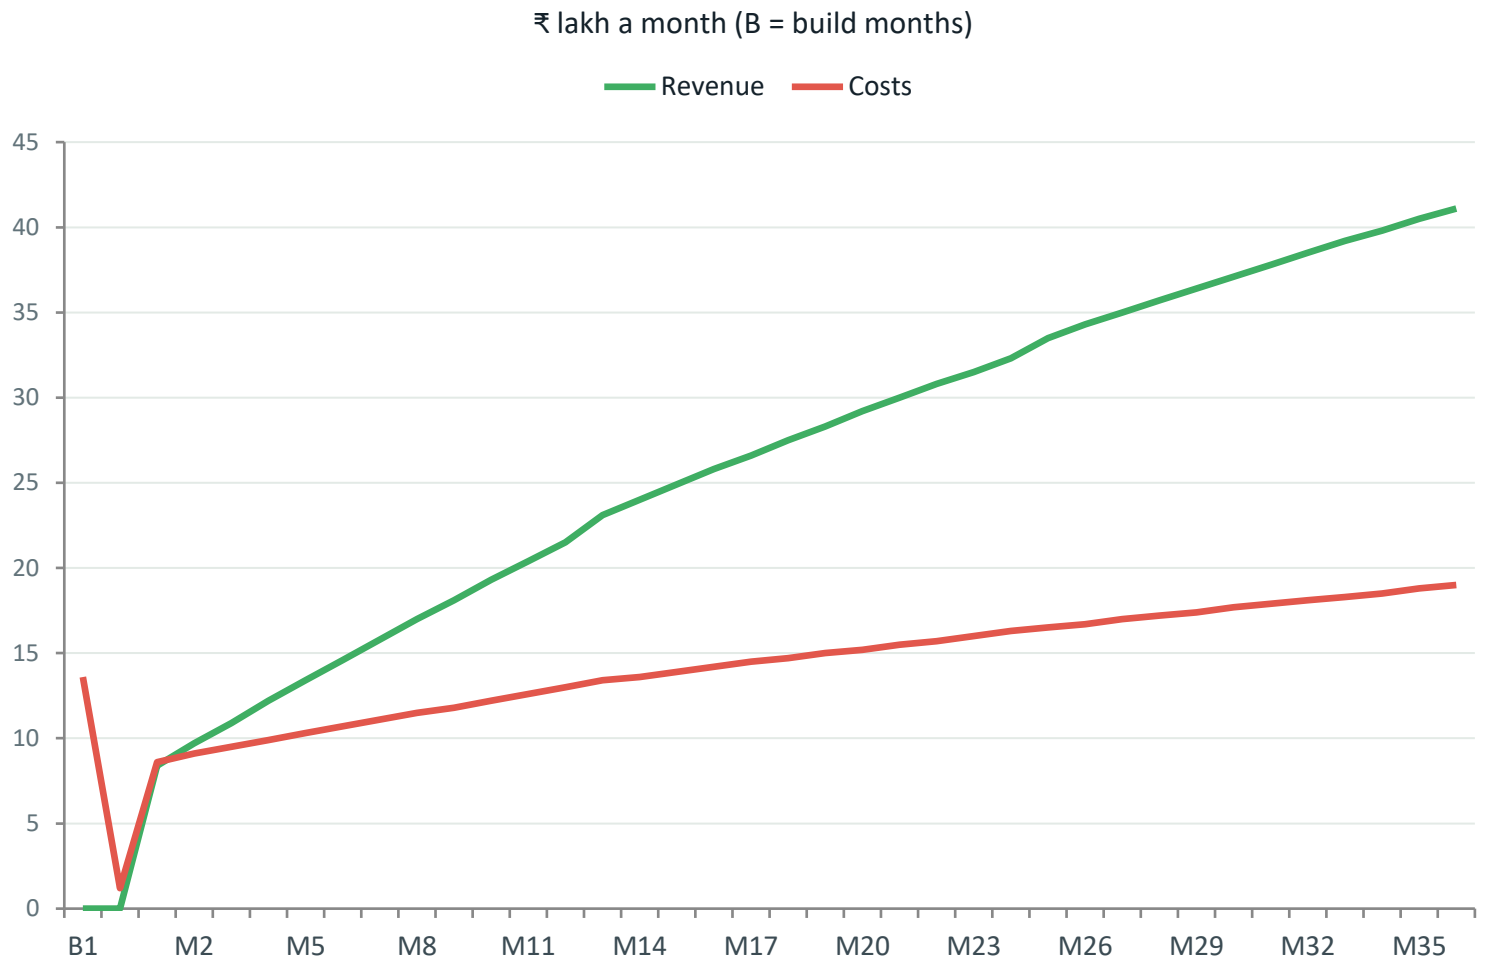

4

Steady state

20 Team + 2 Business sales a month; support loads every layout within 48 hours.

Launch dinners are budgeted at ₹50,000 per city (₹25,000–50,000 range). 5% of customers are assumed to choose the yearly plan.

Revenue passes costs in M2; ₹1.81 Cr in year 1

	Year 1	Year 2	Year 3
Revenue	₹1.81 Cr	₹3.34 Cr	₹4.49 Cr
Profit	₹36.2 L	₹1.56 Cr	₹2.36 Cr

Year 1 profit is after the one-time costs and the two build months.

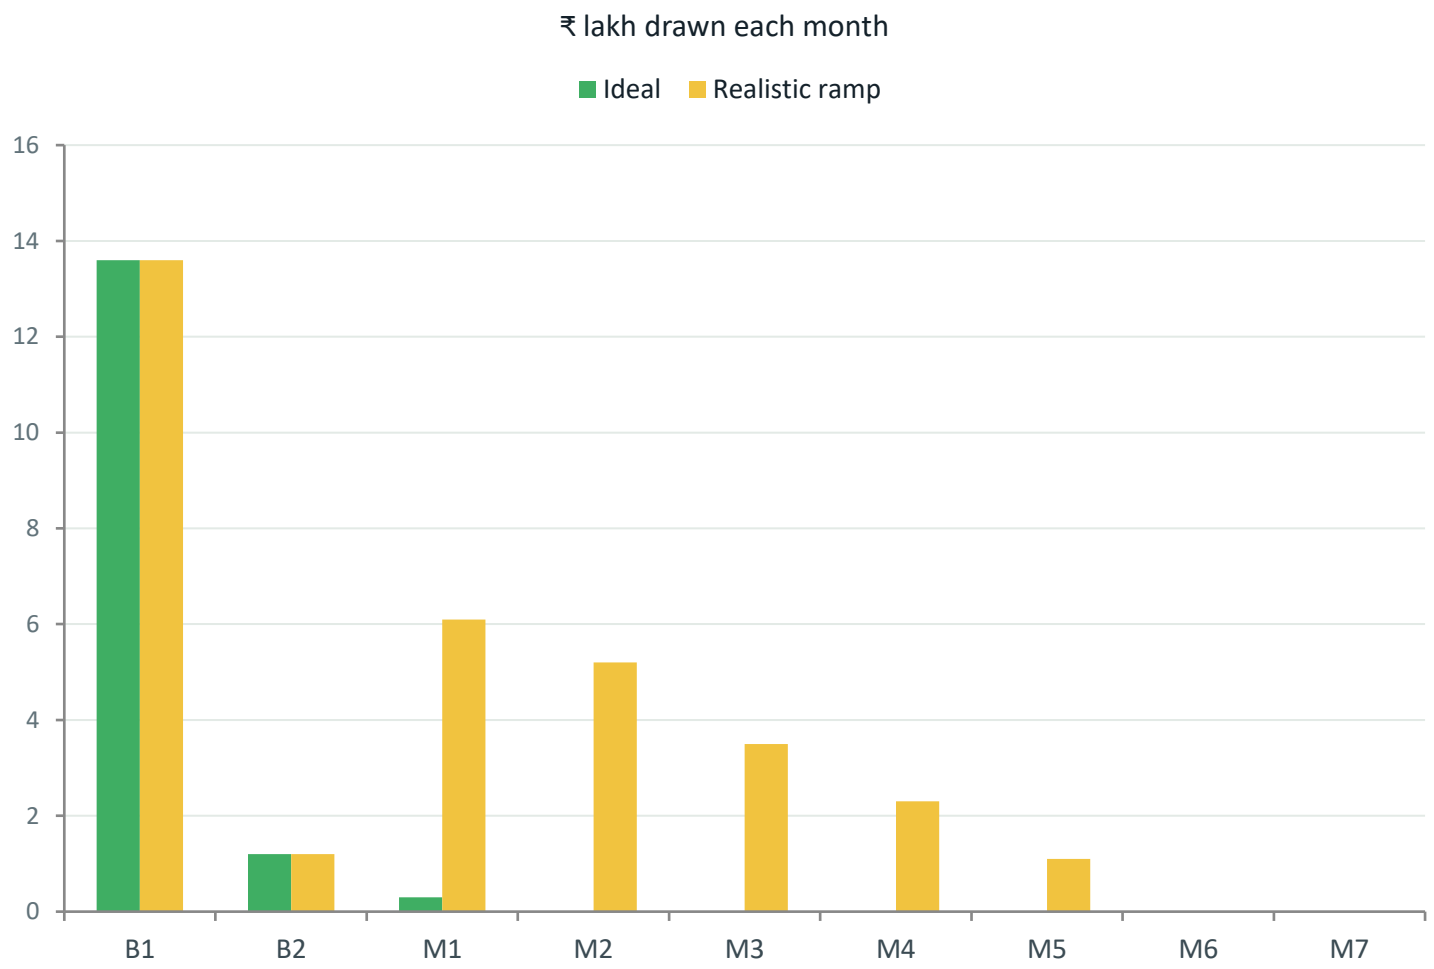

565

paying companies by month 36

₹34.9 L

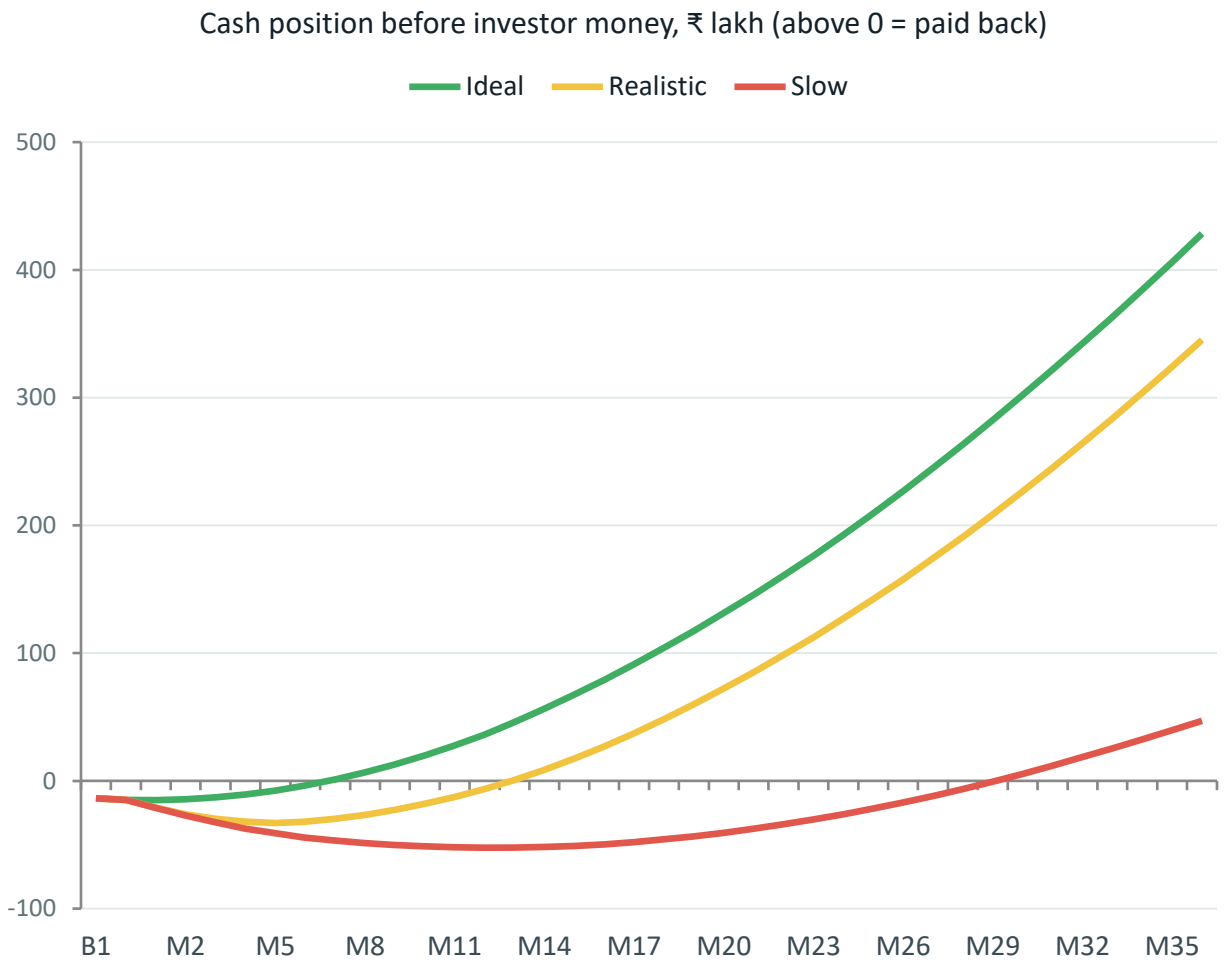

subscription revenue a month by month 36

Money is drawn only until the business funds itself

Month	Ideal	Realistic
Build 1 (incl. one-time)	₹13.57 L	₹13.57 L
Build 2	₹1.23 L	₹1.23 L
M1	₹26,171	₹6.07 L
M2	–	₹5.20 L
M3	–	₹3.50 L
M4	–	₹2.33 L
M5	–	₹1.09 L
Total	**₹15.06 L**	**₹32.98 L**

Investment earned back by M7 (ideal) or M13 (realistic)

How the partnership could work

- One Pvt Ltd company with both of you as directors
- Investor brings the capital as share capital, drawn month by month as above; the unused reserve stays with the investor
- CEO brings the product, technology and daily operations: sweat equity that vests over 4 years, plus salary from launch
- Example: investor 60%, CEO 40%. From payback, half of each month's profit is paid out and half kept for growth. The investor then receives about ₹58.8 L by month 24 and ₹1.30 Cr by month 36 (ideal), or ₹1.05 Cr by month 36 (realistic)
- Have a CA draft the shareholder agreement; dividends are taxed in the investor’s hands

What has to go right, and how we will know by month 3

First 20 customers from the launch dinners

Show each owner their own layout going live from a photo. Offer the launch price only that week.

Layouts live within 48 hours

Support loads every project with the AI reader, so customers see value before the first bill.

Referral partners

Brokers, surveyors and DTCP consultants earn a share of the setup fee for every owner they bring.

Stickiness from money features

Once instalments, receipts and the ledger run in PocketPlot, customers rarely leave.

Milestones (ideal case)

Month 1	22 customers, 4 cities launched
Month 2	first profitable month
Month 3	65 paying customers
Month 7	investment earned back
Month 12	239 paying customers
Month 36	565 customers, ₹34.9 L a month

If sales are slow, a lean team breaks even at half the size

Warning signs

- Fewer than 40 paying customers by month 3
- Bank balance below 3 months of fixed costs
- More than 5% of customers leaving a month
- Launch dinners converting under 10%

What we do, in order

1. Cut ads to ₹20,000 and marketing to ₹60,000; focus on Coimbatore and Madurai
2. Pay sales mostly on commission (₹70,000 base)
3. Founder salary halved to ₹1 L
4. Push the yearly plan (2 months free) to bring cash forward
5. Sell services: loading old layouts and payment history, branded apps

Why we can recover

109

paying Team customers cover the lean costs (₹4.0 L a month), against 187 at full costs

Every customer pays more than it costs to serve, so a smaller team is still profitable. The product is built and the money is drawn monthly, so the most at risk early is the ₹14.8 L spent before launch.

More ways to earn from the same customers and their buyers

Usage top-ups

Extra AI layout reads at ₹99 and reminders at ₹1 each.

Done-for-you setup

Load old layouts, bookings and payment history: ₹5,000–15,000 per project.

Project microsite

A public live layout for buyers with an enquiry form: ₹1,999 per project a month.

Lead generation

Run Facebook and Google campaigns for promoters for 15% of their ad spend.

Collections

UPI payment links on every instalment reminder, sharing the gateway fee.

Partner referrals

Home loans, legal and registration, surveyors and vastu consultants pay for referrals.

Print from the live map

Layout brochures, hoardings and site boards designed from the live layout.

Branded apps

Custom builds for larger developers from ₹3.5 L, plus a yearly maintenance fee.

NEXT STEPS

The next 90 days

Week 1–2

Agree the partnership terms; register the Pvt Ltd; open the bank account; file the trademark and DPIIT recognition.

Week 2–8

Build billing and sign-up; release on Play Store and App Store; WhatsApp templates and SMS DLT approved; hire sales, marketing and support.

Week 8–10

Launch dinners in Coimbatore, Madurai and Dindigul; first 22 customers live within 48 hours each.

Week 10–13

Chennai launch; referral partners signed; review the month-3 warning signs and adjust.

Ask: ₹40 L committed, drawn monthly. Ideal case uses ₹15.1 L, self-funding from M2, investment back by M7.

Figures come from PocketPlot_Pricing_Model.xlsx; every assumption there can be changed and the plan recalculates.

Key assumptions behind the numbers

Assumption	Value	Assumption	Value
Sales a month (ideal)	20 Team + 2 Business	Customers paying yearly	5% (10 months for 12)
Team size per customer	10–15 users, costed at 15	Projects per customer	6–7, costed at 7
Customers leaving a month	2%	Build months before launch	2, no founder salary
AI layout read	$0.34 (₹33), 15 a month	WhatsApp / SMS	₹0.145 / ₹0.22 + 18% GST
Supabase	Pro $25 + compute, scales per 50 customers	Exchange rate	₹96 per $
Sales / marketing / support	₹1 L / ₹1.5 L / ₹60,000 a month	Ads	₹60,000 a month
Workspace	4 seats × ₹8,000	CA and accountant	₹10,000 a month
Founder / CEO	₹2 L a month from launch	Contingency	10% on all costs
Payment gateway	2% of collections	Sales incentive	5% of setup fees
Taxes	GST and income tax pass through, not modelled	Prices	As published on the sales site
